# Achieve the perfect finishing touch with minimal effort and cost

## Ecolining

Ecolining is a range of innovative lining boards and decorative mouldings that are attractive, user friendly and quick to install. Manufactured from a plantation grown hardwood called Paulownia, Ecolining is easy to work with and durable.

## Coating

The range of lining boards and moulding is pre-finished and coated with two coats of Oil based polyurethane to enable the product to be installed quickly with no need to sand or varnish, whilst keeping the product good looking and maintenance free for years to come.

## Colours

Ecolining is available in three prefinished natural colours which add a stylish timber look and feel to any indoor or outdoor ceiling application.

Spring

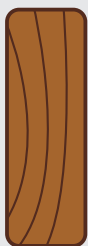

Summer

Autumn

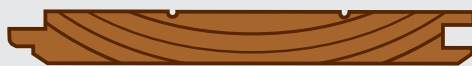

## Applications

- Eaves lining
- Feature ceilings
- Wall lining
- Alfresco areas
